# Tailor Microscope Services to Your Needs!

Microscopes are precision instruments which need utmost care. Prevent down time and costly repairs.

DSC Optical services ALL brands of microscopes, and is a Zeiss Alternate Service Provider.

## Routine Maintenance Service (On Site)

Each maintenance visit includes a complete cleaning of all optical surfaces, lubrication of all external moving mechanisms, adjustments, and optical alignment checks.

## Emergency Service

DSC Optical can have you up-and-running usually within a 24-hour period.

## In-House Repair

Ship to our facility for a FREE estimate and SAVE.

## Moving Services

Avoid damage to your microscopes – have DSC Optical pack and relocate these delicate instruments.

## Microscope Sales

In addition to microscope service, DSC Optical also sells a variety of new and refurbished microscopes

including Accu-Scope, Bausch & Lomb, Labomed, Leica, Nikon, Olympus, Unitron, US Micro and Zeiss.

## Digital Imaging

DSC Optical has a variety of digital cameras and software which can be added to your new or existing microscope. We can help you choose the right camera for your application.

- PixeLink USB and Firewire Cameras with Image Capture Software
- Micrometrics Cameras and Software
- Other Cameras available customized to your needs

## Quality Guarantee

*We pride ourselves in providing thorough, careful, and complete service.*

*Our technicians are experienced, highly trained and qualified Craftspeople dedicated to keeping your equipment working at its peak.*

*You can count on us to carefully maintain your equipment and minimize breakdowns.*

*Also count on us for replacement bulbs, digital imaging and other items.*

*Our over quarter of a century of Experience in the optical microscope Business gives us a unique perspective on your needs... and we use it to ensure you are satisfied. We guarantee it!*
